Items needed for data base update using Internet method:

- USB to Serial adapter cable - Keyspan USA 19HS - can be purchased at Walmart for about \$27

- KLN Data loader cable - PN 050-3612-0000 (KLN 94) or 050-03213-0000 (KLN 89B/90B/900/KLX135A)purchased from Bendix King. Email this PN to <u>parts@bendixking.com</u> for price and availability

Steps for updating KLN/KLX Units using Internet method:

1. Go to the following website using **Internet Explorer only**: <u>https://wingmanservices.bendixking.com/wingman/pages/wingmanLoginPage.jsp</u> and log in.

2. Find the link that says "*GPS Data loader software*". This link can be found in the bottom blue box called *Quick Navigation*.

3. From here, download the appropriate data loader software for your version Windows OS. **NOTE:** Windows 8 users should download the Windows 7 software.

Tools	
Win7-GPS Data Loader (Size: 4.5 MB) Readme.doc	
Windows Standard-GPS Data Loader (Size: 1.7 MB)	
Windows Vista-GPS Data Loader Option 1 (Size: 1.7MB)	
Windows Vista-GPS Data Loader Option 2 (Size: 1.7MB) <u>Readme.txt</u>	
SDDR-31 Firmware Upgrade	
KLX100Software Upgrade	
<u>VistaNav Upgrade</u>	

4. Find the link at the top of the page that says "Subscriptions".

5. Locate the link for your appropriate KLN unit. KLN units are listed in the top row, on the right hand side.

New Subscriptions	Existing Subscriptions	Subscription Cart (0)
Database Products - Ne Click on a product to purchase	w Subscriptions	
AV80R	EGPWS

8. Retrieve the database key from your KLN/KLX unit:

GPS Model	Database Key Location
KLN 900	Set O Page

KLN 90	See "Reading Key From Data Loader Software"
KLN 90A	See "Reading Key From Data Loader Software"
KLN 90B	Set 0 Page
KLN 94	Set 3 Page
KLN 89/B	Set 3 Page
KLN 35A	See "Reading Key From Data Loader Software"
KLX 135A	See "Reading Key From Data Loader Software"
KLX 100	I/O Setup page, select UPDATE DATABASE, Load
	database page

9. Return to Wingman Home.

10. Select the "Download your Database" button.

11. Click the "Accept" word when window comes up.

12. Find the link for the database you wish to download.

113	Prepare Download	KLN 94 Americas North

13. Select "Prepare Download" link.

113	Prepare Download Please enter 8 digit database key.	KLN 94 Americas North
	Generate database Reset	

14. Enter 8 digit database key retrieved from Step 8, then select "Generate database" button.

113	Prepare Download Please enter 8 digit database key. 12346578	KLN 94 Americas North
	Generate database Reset	

15. Select "Download" button and save to a place where the file can be retrieved easily – preferably your Desktop.

16. File download is called "Database.exe". File should be around 3 megabytes in size. **DO NOT OPEN THIS FILE AT THIS TIME!**

17. Logoff and close internet browser.

18. Connect your computer to your GPS unit using the Keyspan cable and data cable noted in "**Items needed for data base update using Internet method**" at beginning of this document.

19. Find Zip file for Database Loader program downloaded from Step 3 and unzip it.

20. Open Database Loader program.

21. Find and select the *picture* of the unit you wish to update.

23. Select the appropriate radio button for how your unit connected and select "OK".

24. Ensure information provide on subsequent window is correct (specifically the database key and COM Port) and then select "Start" button.

Is Update Information Correct?
Verify that the information below is correct.
Selected File: C:\Users\e811974\Desktop\Database.dat
Update Type : KLN94 AM NORTH
Effective Dates : 05/02/2013 TO 05/29/2013
Database Key: 12346578
Use COM Port: 0 Change Port
Then, connect your KLN94 AM to the COM 0 port on your PC, and press the START button.
Start Cancel Help

25. Follow instructions on next window. Database will then begin downloading. Depending on which unit that is being updated, this could take anywhere from 8-16 minutes.

26. After successful update, go to the computer desktop and find the following files: *Database.exe, database.dat, NETLOAD, netload.cfg* and a *readme* file and delete them.

Reading Key From Data Loader Software

1. Connect unit to computer and start GPS Data Loader Software.

2. On the GPS Loader Software, go to *Tools* > *Read Database Key from*, then select the appropriate connection.
