

## FIRST-TIME GPS DATABASE DOWNLOAD INSTRUCTIONS

1. Print out and read through the instructions.
2. Make sure your GPS unit and laptop computer meet the minimum requirements for Internet download.

### *DATABASE AVAILABILITY*

The GPS Database Loader works with the following Honeywell GPS units:

KLN 35A	KLN 90A	KLX 135A
KLN 89	KLN 90B	KLN 900
KLN 89B	KLN 94	
KLN 90	KLX 100	

You cannot use the GPS Database Loader program for diskette-based database subscriptions.

### *COMPUTER REQUIREMENTS: SOFTWARE*

The GPS Database Loader is a 32-bit program, compatible with Microsoft Windows 95, 98, Millenium Edition (ME), NT versions 3.51 /4.0, 2000, XP or higher.

The Windows-based GPS Database Loader is a replacement for the DOS-based NETLOAD.EXE program. (The old NETLOAD.EXE program will continue to be included in download packages if you choose to use DOS.)

### *COMPUTER REQUIREMENTS: HARDWARE*

Make sure that your laptop computer has a 9 pin serial port. If it does not, please be sure to have a USB to 9 pin serial port adapter. Please note not all USB to serial port adapters work well. We recommend the Keyspan USB Model USA-19HS. More information can be found at [www.keyspan.com](http://www.keyspan.com).

3. Install the GPS Database Loader Program. For details on how to download and install the GPS Database Loader Program, please review the "GPS Database Loader Installation" document found on the GPS Database Downloads web site under Related Documents (**Products & Services > GPS Database Downloads > Related Documents**).
4. In order to download a database, you need a key number which is unique to your GPS. Turn on your GPS unit and copy down the database key number found on the SET 0 or SET 3 pages. If the key number is not displayed on your GPS unit (as with the KLX 135A, KLN 90 and KLN 90A), you will need to use the GPS Database Loader program, "Key Reader Tool", to read the database key from the unit. If your GPS unit does not display the database key number, your GPS unit's operating software may need to be updated. Do not try to download a GPS database without a database key number.
5. Set up an account on the Bendix/King web site. Go to the Bendix/King web site and click on **Create an Account** link found within the log-in box.
6. Log on to the Honeywell Bendix/King Web site by entering your Honeywell ID and password.

7. Go to the Download GPS Database page (**Products & Services > GPS Database Downloads > Download GPS Database**) and click on **Purchase a new subscription**.

**Honeywell** → Honeywell.com → Aerospace

## Honeywell Bendix/King

### Download GPS database

Access database updates 24 hours a day, 7 days a week online.

To ensure that the GPS download is successful, please install the Honeywell GPS Database Loader. Otherwise, click [here](#) for more information.

Please select the appropriate option from the menu, whether it be downloading, renewing or creating a subscription, performing a one-time download or downloading an update for the second time. Honeywell uses Jeppesen Sanderson NavData for its GPS products. Periodically, Jeppesen-Sanderson publishes notices pertaining to the electronic information contained within their navigation data. These notices are archived here for the convenience of our subscribers as well.

**Download the database**

 Download the current database. Please note, the user will be charged for each attempted download during the current cycle.

[Download Now >>](#)

**Purchase a new subscription**

 As a new customer or a current customer whose subscription has expired, purchase a new GPS Database subscription online.
