

The constant supply
of oxygen for non-
pressurized aircraft

The constant supply of oxygen

for non-pressurized aircraft

Do you also want to climb up to 18.000 ft and fly quicker with aircraft with non-pressurized cabins? OXYFLY can make this possible. OXYFLY generates a constant supply of the necessary oxygen for the arterial oxygen saturation for approx. 4 persons.

You have the choice between 2 models:
OXYFLY mobile is ideal for flexible use.

The OXYFLY OEM-version is superbly suited for fixed installation in aircraft.

OXYFLY can also be used for adventure trips, such as for example crossing the Andes in motorized vehicles.

BENEFITS AND ADVANTAGES

- Altitudes up to 18.000 ft
- Increase in aircraft speed of up to 20%
- Fuel savings up to 20%
- Anaerobic O₂-supply
- Continuous, independent O₂-supply
- Easy to own plug and play system
- No expenses for the procurement of O₂-bottles
- Preheated O₂
- Optimized O₂-moisture content
- Designed for approx. 4 persons
- Long-distance tested

ACCESSORY SET

- Pulse oximeter
- Flowmeter
- Nose cannula
- Set of hoses including 30 V plug

ACCESSORY OPTION

- Wheels for a mobile unit
- Belts for lashing

APPLICATION FIELDS

- Cargo planes
- Private passenger planes
- Airplanes dropping off parachutists
- Flying Doctors
- Motor vehicles in high altitude areas

Mobile unit

OEM fixed installation

OXYFLY fixed installations and mobile units – the innovative solutions for a constant supply of oxygen

The constant oxygen supply

OXYFLY – DEFINITELY A GOOD DECISION

OXYFLY is absolutely plug and play and completely comfortable. Ready for immediate take-off with our convenient accessory set, which is optional. Only best quality tested components are included in this set, such as for example the tubing which is free of plasticizer. With OXYFLY manufactured by DÜRR TECHNIK you are optimally equipped.
